**PLUMAS COUNTY FIRE SAFE COUNCIL REQUEST FOR RWMG SUPPORT FOR THE
BUCK'S LAKE THINNING PROJECT**

Plumas County Fire Safe Council is requesting a letter of support from the Upper Feather River IRWM RWMG for a project that the Coalition is trying to get funding for through Sierra Nevada Conservancy's Proposition 1 grant program. The Council is proposing to finish thinning the last 200 acres around Bucks Lake from the 2012 Bucks Lake Project, which was a Plumas National Forest project around the lake that consisted of treating 1,511 acres of forest, 13 miles of road improvements to reduce erosion, and some 1500' of watercourse restoration in Pat Maloy Ravine and Bucks Creek. The last 200 acres located near the Southern end of the lake will connect these treatments, and reduce hazardous fuels around cabins, along tributaries and meadow areas. A map of the project plan is attached showing the units and treatments. Request for discussion and support.

Bucks Lake Hazardous Fuel Reduction

Unit 4
14 acres

Unit 116
59 acres

Unit 20
12 acres

Unit 86
16 acres

Unit 955C
5 acres

Unit 955D
12 acres

Unit 955F
8 acres

Unit 101
25 acres

Unit 955B
10 acres

Unit 955E
8 acres

Unit 955F
8 acres
